To All Business Managers

I am the wife of a Union Boilermaker out of Local 83, Kansas City, MO. I have been making quality welding hats since 2001. I have several people out of different locals buying welding hats from me. Everyone seems to like them, so I would like to give more people a chance to buy a quality American Made welding hat.

I would really appreciate it if you could hang my flier with the sizing chart on your bulletin board in your local. All my information that anyone will need is on the flier. My direct website is www.uneekcaps.com. I can mail these hats anywhere in the U.S. My husband works away from home most of the time, so I just send his and the people he works with as General Delivery to the post office where they are staying.

Thank you in advance for your cooperation. This is my job and I absolutely love it. Any support I can get would be greatly appreciated.

Thanks Again

All hats are made by me. I have been making welding hats since 2001. I am a wife of a Union Boilermaker out of Local 83. All my hats are made from quality material and include wide varieties of fabric patterns. My hats are lined and they are reversible. They are also preshrunk. They are not cone head hats.

If you do not have an eBay account just look as a visitor and then email or call me with the fabric you want and your size. I can also mail to Post Offices using general delivery if you are away from home working. I take checks, money orders and PayPal for forms of payment.

Hats are custom made when you order them. When paying please include size or it will delay shipping.

Use the size chart below to figure out your size. You can figure your size by using a soft tape and measure above your eyebrows and all the way around your head. DO NOT pull the tape tight. You can also use a string and wrap it around your head then measure the string on the tape measure.

INCHES	SIZE
20 3/4	6 5/8
21 1/8	6 3/4
21 1/2	6 7/8
21 7/8	7
22 1/4	7 1/8
22 5/8	7 1/4
23	7 3/8
23 1/2	7 1/2
24	7 5/8
24 1/2	7 3/4
25	8
